

# PRINCE2® Project Board Senior Level Awareness

## Course Description

The event covers the principles that have been introduced in PRINCE2® and their effect on the Project Board.

The course lasts for 1 day and includes the following:

- Y Instructor Led Tuition
- Y Interactive discussion
- Y Delegate Pack

## Course Objectives

The event helps delegates to identify the impact that the use of PRINCE2 will have on their own organisations.

On completion of the course the delegates will have:

- Y Defined a project
- Y Defined the Project Board's responsibilities
- Y Defined the roles of the Project Board's members
- Y Identified the Project Board's responsibilities throughout each PRINCE2 stage

## Intended Audience

The event is recommended for business managers who participate in PRINCE2 Project Board Reviews or for people who have Project Managers using the PRINCE2 method to report to them.

## Related Courses

- Y PRINCE2® Introduction
- Y PRINCE2® Foundation
- Y PRINCE2® Conversion
- Y PRINCE2® Practitioner

## Course Outline

PRINCE2 is a process-driven approach to project management; the processes support each of the main drivers within the project. PRINCE2 is suitable for planning and controlling any type of project, regardless of scope or size. PRINCE2 is increasingly being viewed as a Best Practice model.

The 1 day course introduces the delegates to the concepts of project management and then takes the delegates through the relevant parts of the PRINCE2 method (i.e. where there is Project Board involvement). The course covers the importance of the business case as the foundation for the project and the role the Project Board plays in directing the project to ensure that the project will deliver the anticipated business objectives.

The course is delivered in a number of modules, all of which include interactive discussion as the main vehicle for understanding PRINCE2 and its implications.

## What's Included

- Y Pre-course instructions
- Y Delegate handout pack

## Your Instructor

All WPM instructors are practising Project Managers, with many years of experience managing projects of all sizes.

## Benefits

Projects are more likely to deliver the expected benefits if the roles and responsibilities of the project team are fully understood by those involved

Delegates will be able to identify ways of implementing the PRINCE2 methodology into their own organisation
