

# Simply Projects® Method: Introduction

## Course Description

The event covers the application of the WPM PRINCE2 based Project Management Method with particular focus on type 1 projects.

The 1-day course includes the following:

- Y Instructor led course
- Y Case studies
- Y Group exercises
- Y Delegate pack

## Course Objectives

The course will enable delegates to:

- Y Describe the components of the Approach and the Project Management Method
- Y Identify the organisational benefits to using a Project Management Method
- Y Manage type 1 projects using the Method
- Y Report on the health of projects

## Intended Audience

The event is recommended for anyone who would be involved in the running or support of smaller type 1 projects.

Previous experience of PRINCE2 is not necessary.

## Course Outline

The course addresses all aspects of the Method approach and the reasons for adopting the Method, specifically type 1 Project Management Approach. The course includes the following modules:

- Y The Method and it's benefits
- Y Before a Project Starts
- Y The Project Organisation
- Y Starting a Project
- Y Delivering a Project
- Y Completing a Project

## What's included

- Y Services of a PRINCE2 Practitioner
- Y Delegate handout pack

## Your Instructor

All WPM's instructors are practising Project Managers, with many years of experience managing projects of varying size. All instructors are themselves "PRINCE2 Practitioners".

## Benefits

- Y The attendees will manage and administrate their projects using a Method based on PRINCE2, the *de facto* government project management standard
- Y The course promotes buy-in and support for the Method from the attendees
