

# PRINCE2® 2009 Practitioner

## Course Description

The event aims to develop an understanding of PRINCE2 2009 and its practical application, explaining the flexibility and adaptability of the PRINCE2 2009 method and how it can be employed to achieve business-related objectives. The course offers a set of excellent management tools for members of staff taking team or project manager roles. Senior Managers' needs are also addressed by providing the structure for a suitable decision support environment. There are no pre-requisites for this course but an understanding of project work would be helpful.

## Course Outline

- Y PRINCE2 2009 philosophy, overview & introduction
- Y PRINCE2 2009 structure, principles, process model and themes
- Y Project Business Case and benefits
- Y Project Organization, roles & responsibilities
- Y Programme management implications
- Y Project Quality and Quality Reviews
- Y Project Change Process and Controls
- Y Project, Stage and Team Plans and products
- Y Progress Controls, management by exception, dealing with project issues
- Y Management of Risk
- Y Implementing and tailoring PRINCE2 2009 to your organisational environment

## Course Objectives

- Y Understand the principles, themes and processes of PRINCE2 2009
- Y Apply the method and create key management products
- Y Prepare for and take the PRINCE2 2009 Foundation and Practitioner Certificate examinations

## Intended Audience

The PRINCE2 2009 combined Foundation and Practitioners course is intended for managers and potential PRINCE2 2009 practitioners who require 'hands-on' experience of the PRINCE2 2009 techniques, processes and components. Delegates are likely to have had experience of team leading, project management, Project assurance/support and/or user management.

## Benefits

Delegates will adopt a structured approach to Project Management  
Delegates will be more effective in their roles and better able to run successful projects

## Examination & Certification

The Foundation examination is a one-hour multiple-choice paper (closed book).  
The Practitioner examination is a two and a half-hour (open book) objective test paper.

## Your Instructor

All instructors are skilled lecturers, approved by APMG, the examining body, with extensive experience in the practical, 'real-world' application of PRINCE2 2009 in the project environment.
